Footwear

In the center of the room is a display table that shows footwear. Choose two shoes and compare and contrast. Draw both shoes. Use arrows to label the differences.

--	--

Based on your observations, what environment were these shoes made for?
What do you think they are made of?

Explore the maps on the wall to find out where people lived in Utah during different time periods. Mark on the map the sections of Utah where people often lived.

Talk as a group: Why do you think some natural places might be more welcoming to people? What do humans need to survive?
