

# What Do I Eat?

## K-2nd Student Activity Guide

Name: \_\_\_\_\_

### Teeth

Some animals only eat other animals. Draw an animal who only eats other animals. What shape are their teeth?

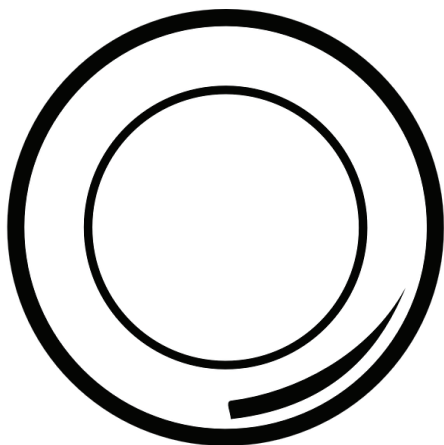

Some animals only eat plants. Draw another animal that eats only plants, berries, or seeds. What shape are their teeth?

**Find a Friend** Look at the animals your friend drew. What is the same? What is different?

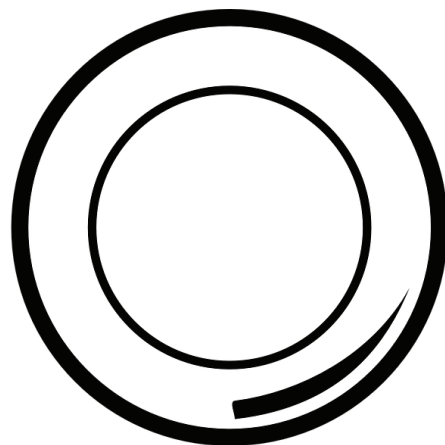

### Past Worlds

Look at the fossils and find one extinct animal-eater and one plant-eater. How can you tell the difference? What do you think these animals ate? Draw a picture.

**Meat Eater**  
**[Carnivore]**

**Plant Eater**  
**[Herbivore]**

**Find a Friend** Talk with a friend about the evidence, or clues, you have for what each animal ate.

**MUSEUM OF UTAH**  
Rio Tinto Center | University of Utah

## Great Salt Lake

Not every animal has teeth! Birds have beaks that are perfect for eating their favorite food.  
Find one bird for every kind of beak in the displays. Draw what food you think they eat.

 Meat Tearing	
 Straining and Nibbling	
 Spearing and Stabbing	
 Seed and Bug Picking	

**Find a Friend** Pick a bird and act out how you think it eats with your friend.

## What do you eat?

Draw a picture of your favorite food.

**Find a Friend** Are you an animal-eater, plant-eater, or both? What other things do you like to eat?
