## Ever wanted *your photo* to be in a museum?

## Here's your chance!

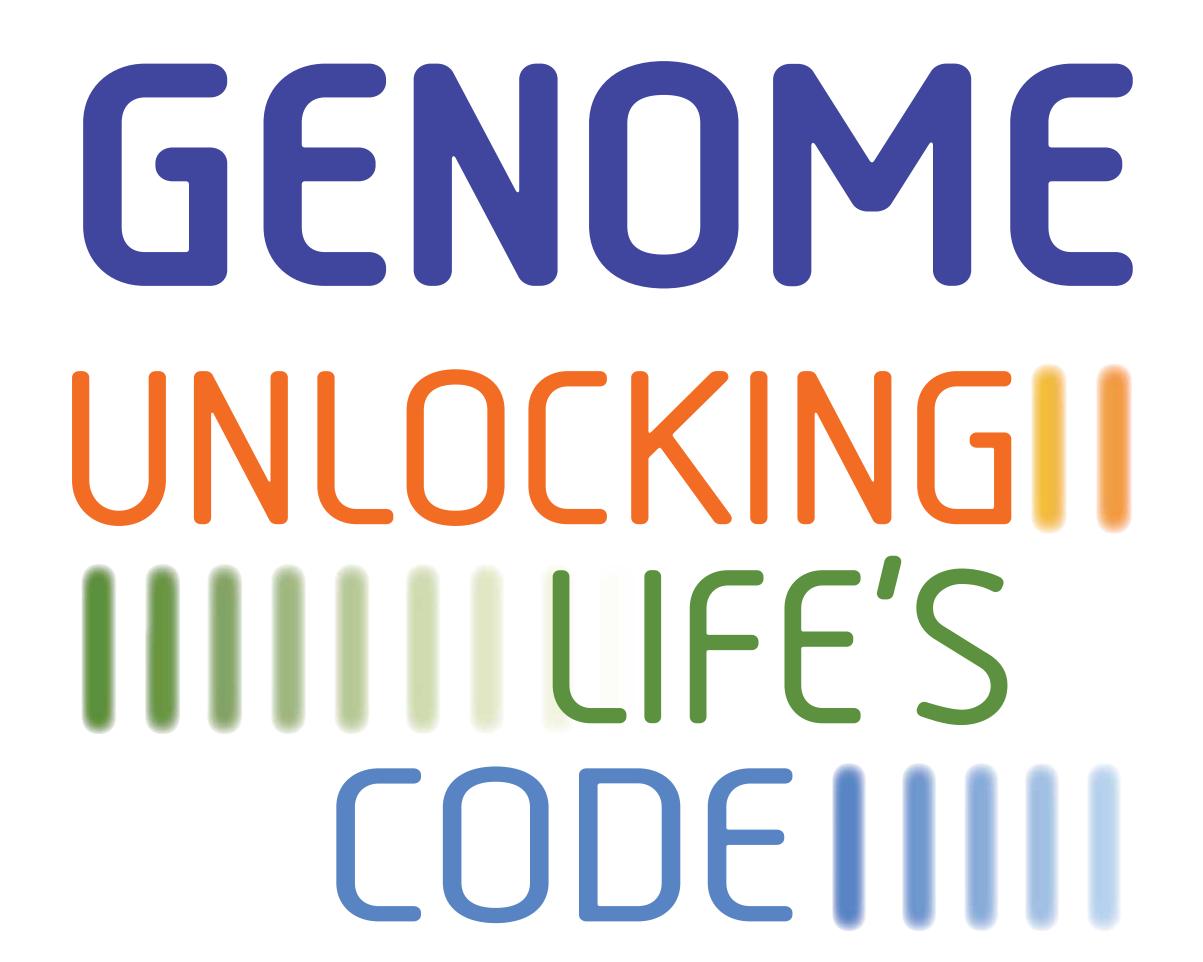

Help the Natural History Museum of Utah create an exhibit about genetic traits in our community.

## It's easy:

- Tell us which of these genetic traits you have: dimples, tongue rolling, attached earlobes, and pointed hairline.
- Get your photo taken.

## You'll get:

- Your photo in NHMU's summer special exhibition, *Genome: Unlocking Life's Code.*
- A free admission pass to come see your photo at the Museum.
- A digital copy of your photo.
