

Natural History Museum of Utah Volunteer Program Field Trip Programs Tidbit Tour Guide Position

NHMU Mission: The Natural History Museum of Utah illuminates the natural world and the place of humans within it. Tidbit Tour Guide volunteers play a critical role in sparking curiosity and excitement in student visitors, engaging them in science education, and fostering an understanding of and appreciation for Utah's natural history.

Position Summary: Tidbit Tour Guides are an important factor in providing student visitors with exceptional customer experience. With training in the subject matter in their galleries, they bring the Museum to life, helping students make lasting connections between what they learn in the classroom, natural history, and scientific inquiry. Through this volunteer engagement, an individual has the unique opportunity to become involved with NHMU and engage curious young minds with the thrill of immersive science education.

Specifically, Tidbit Tour Guides will be trained to facilitate 10-15-minute mini-tours to small groups of field trip guests in the *Life*, *Great Salt Lake*, or *Past Worlds* galleries. Tours are discussion-based and align with the Utah school standards. Volunteers will also work with NHMU staff to respond to visitors' needs and questions regarding facilities and exhibitions, assist with field trip arrival, and reinforce behavioral expectations in the galleries. By leading these tours, volunteers will inspire learning, support Museum exploration, and foster in-depth engagement with Museum exhibits and content.

Other Benefits: Volunteers at the Natural History Museum of Utah expand their knowledge of the natural world through specialized trainings, enjoy behind-the-scenes access, and interact with the Museum's research staff. They broaden their social circle by making connections with fellow volunteers, Museum staff, and Museum guests; they contribute to scientific research, and make an impact in increasing scientific literacy and awareness in the local community, and beyond. This is a particularly great role for anyone pursuing a career in science, education, or nonprofit work. This role ensures a front-row seat to the innerworkings of a world-class Museum, and a great opportunity for career connections and mentoring!

In addition, the Museum offers the following benefits:

- Volunteer t-shirt and nametag
- Free admission into the museum
- Two free guest passes for every 25 hours of service
- Museum membership discount
- Discount at Museum Store
- Use of the volunteer lounge
- Continuing Education programs, including lectures and tours
- Professional development opportunities
- Invitation to social and recognition events

Department: Field Trip Programs, Education and Community Engagement

NATURAL HISTORY
MUSEUM OF UTAH
Rio Tinto Center | University of Utah

May 2022

Supervisor: Mara Salfer, Field Trips Coordinator
