

Life

K-1st Student Activity Guide

Name: _____

Find the alpine habitat diorama. Look for the snowshoe hare (rabbit) and the white-tailed ptarmigan (bird). What happens to their fur (hare) and feathers (ptarmigan) in the winter?

Why do you think this happens?

What do you do differently in the winter or cold? Draw a picture of yourself.

Go to the desert habitat diorama. Find an animal with an underground home. Why do they have a home underground? How does this help them live in a hot climate?
